The CHFCA welcomes Alkaline Fuel Cell Power as new Small Business Member

VANCOUVER — The Canadian Hydrogen and Fuel Cell Association (CHFCA) is pleased to announce Alkaline Fuel Cell Power as a new Small Business Member.

Alkaline Fuel Cell Power is a diversified investment platform developing affordable, renewable, and reliable energy assets and cleantech. The company works to bring ‘Power to the People’ today, combining a stable revenue stream with a future-forward vision to commercialize its advanced hydrogen fuel cell technology to meet the massive global market need, and ultimately generate compelling returns for investors.

“As a Canadian hydrogen company, we are excited to be an active member of the CHFCA,” says Frank Carnevale, CEO of Alkaline Fuel Cell Power Corp. “Governments across Canada are quickly realizing the value hydrogen needs to play in delivering and supporting a carbon neutral economy, and we will support the association in speeding up the adoption and integration of hydrogen.”

AFCP operates through two global entities: Fuel Cell Power NV, a wholly owned subsidiary in Belgium, and PWWR Flow Streams (“PWWR Flow”), an AFCP brand in Canada developing, owning and operating CHP systems.

About the Canadian Hydrogen and Fuel Cell Association (CHFCA)

The Canadian Hydrogen and Fuel Cell Association (CHFCA) is a national association that supports industry, academia, government agencies, financial organizations and other stakeholders focused on hydrogen and fuel cell technologies and products. As the collective voice of Canada’s world-leading hydrogen and fuel cell sector, the CHFCA’s mission is to strengthen Canadian leadership, raise awareness of the benefits of the
technology, and accelerate the adoption of its members’ products and services in Canada and abroad. The CHFCA currently has more than 170 members across Canada and regional branches in British Columbia, Quebec and Ontario. You can also follow CHFCA on Twitter at @PoweringNow or visit www.chfca.ca for more information.
